Exposed aggregate is a highly popular concrete finish, created by incorporating decorative stones, colour oxides, and cement into the mix. The surface is then exposed and sealed to achieve the desired finish, resulting in a beautiful and durable surface that enhances any space.

***Disclaimer**

Aggregates used in exposed aggregate concrete are natural products, and as such, variations in colour, shape, and size are to be expected. These natural variations can also influence the overall shade of the concrete. The images provided are for illustrative purposes only and are indicative of the type of finish that can be achieved. No guarantee is made that the finished product will be identical to the images shown.

Applications

Driveways

Your driveway is more than just an entry to your home; it's a crucial part of your property's appeal. A well-crafted driveway enhances the overall look of your house, complements its architectural design, and integrates seamlessly with your landscaping. With our selection of colours and textures, you can create a striking entry that boosts your home's kerb appeal.

Entertaining Areas

The flooring of your outdoor entertaining spaces plays a key role in adding value and enjoyment to your home. Our versatile concrete surfaces are designed to match your style, providing a durable and attractive foundation for gatherings year-round. Whether you're hosting a summer BBQ or a cosy winter get-together, our surfaces ensure your outdoor areas look great and function perfectly.

Commercial Spaces

Exposed aggregate concrete is an excellent option for commercial projects, offering both strength and style. From shopping centres and office complexes to public plazas, our concrete solutions provide a robust, low-maintenance surface that withstands heavy foot traffic while maintaining its attractive finish.

Pools

Concrete is the perfect choice for pool surrounds, blending beauty, safety, and durability. With a variety of colours and aggregate mixes, you can design a surface that complements your pool area and the surrounding landscape. Brighten the space with lighter tones or use stone colours that tie in with decking and architectural features. Our extensive range ensures the right match for your poolside vision.

Public Spaces & Walkways

Safety and style are crucial in public spaces. Our exposed aggregate pathways and walkways are slip-resistant and durable, making them perfect for parks, gardens, and public squares. The variety of colours and finishes allows for a cohesive design that reflects the surrounding environment, creating inviting spaces for the community.
